Premier Technology Hires ISU Standouts

**Idaho State University's College of Engineering and College of Business Outstanding Students
join Premier Technology**

Blackfoot, Idaho – May 15, 2009 - Premier Technology announces the recent addition of two outstanding Idaho State University graduates. Derek Moss and Dan Jones have both recently accepted positions at Premier Technology.

Both students received high honors in their specialized fields while attending Idaho State University. Derek Moss, recipient of the Outstanding Student Award from the College of Business and the Marketing Student of the Year award, will join Premier Technology's Business Development Department. Dan Jones, recipient of the Outstanding Student Achievement Award from the College of Engineering will use his engineering background as a project manager.

Premier Technology President, Doug Sayer is excited about the recent additions. "Both Derek and Dan have great potential to make a difference in our company".

Derek B. Moss graduated May 9, with a Bachelor's Degree in Business Administration. His major in Marketing has been supplemented with minors in both Spanish and International Commerce. His international experience includes studying abroad in Montevideo, Uruguay during the fall semester of 2006 and has visited El Salvador, Mexico, Guatemala, Costa Rica, Argentina and Brazil. Moss has served as President of the professional business fraternity Alpha Kappa Psi for the past two years and is a member of numerous honor societies. Prior to joining the Business Development department at Premier Technology, Moss completed several internships including spending the past year at the Bannock Development Corporation.

Moss and his wife Shelby currently reside in Pocatello where Shelby is enrolled in the Dental Hygiene program at Idaho State University.

Dan Jones graduated May 9, with a Bachelor of Science degree in Mechanical Engineering. Dan has over 11 years of job experience in the manufacturing industry. He has been working for Premier Technology as an intern for the past two summers and part time during his last year at Idaho State University. While attending ISU Dan was a member of the Engineering Honor Society, Tau Beta Pi and was honored to be included on the dean's list.

Dan has completed his education as a non-traditional student with his wife Erica and their four young children, Audri, Lauren, Justin and Kayla. Dan and his family currently reside in Blackfoot, while he now works full time at Premier Technology as a Project Manager.
