### **Premier Technology Grows Despite Hard Times**

#### **Premier Technology Plans to Hire 25-30 New Employees and Continue Its Growth**

**Blackfoot, Idaho – May 27, 2009** – Premier Technology, Inc. announces plans to hire 25-30 new employees within the next month; demonstrating commitment to its people, customers, community and state.

Most of the new positions being hired immediately will be craftsman and production oriented positions. Premier's current hiring focus is to strengthen its workforce in order to maintain current workload, as well as, prepare for an expected increase in upcoming work, stemming from Premier's recently increased marketing efforts.

After moving their corporate headquarters to Blackfoot in December 2006 the company has experienced a net increase of 175 employees. This increase grew the company to over 350 employees overall. After maintaining 350 employees for over a year, the company now looks toward continued investment in its people, the state and the state's economy in spite of tough economic conditions and other challenges.

Premier Technology continues to develop their people into the leaders of the industry, by providing training to all employees at all levels. This has been a key factor in maintaining the quality of service provided to customers. Maintaining customer confidence is a critical ingredient that has helped the company prosper through this difficult economic period.

Government stimulus funding may be a factor in the future of the company and will be an element that is watched closely by Premier. Despite all challenges Premier has had to overcome, economic and otherwise, Premier is moving forward confidently to strengthen its position, the jobs of its employees and the economy of the State of Idaho.
